

Mini-Show: Date not yet determined but it could be in April. Plans are to have this show open to all artists, not just SDAG members. Something new for our Gallery.

San Diego County Library Calendar Project: A very challenging but educational project! This is in the incubating stage and help is needed if we are to carry it out. Research suitability of libraries, costs, etc. This could be really great or it could also be, after checking out all the details, a "Let's forget this!" Unless we look into it, we'll never know. Let's go for it. Anyone with experience in producing a calendar call quick.

Rummage Sale: Last but not least of our very successful fund raisers. Duties: Collection, marking and selling of items.

If we are to pursue any of the above projects, member involvement is essential. Your input and help is necessary. When you volunteer you not only help the Guild, you reap rewards yourself. In the past, many of the above projects and similar ones have been taken on by the Board Members. This year it is imperative for ALL MEMBERS to participate and contribute to the success and/or continuation of these projects. Call any Board member if you have questions. Participate -- you'll be glad you did.
